<b>Contact person</b>	Director, Sustainability

## 2. OBJECTIVE OF THE POLICY

The Sustainability Policy provides high-level guidance on how to conduct business. It is built on the ten principles of the UN Global Compact. It also serves as a direction for other policies related to sustainability.

Solar is dedicated to turning energy efficiency into a profitable and responsible business for our customers. As such we promote climate-friendly and energy-efficient solutions and launches initiatives for the benefit of society and the environment.

## 3. POLICY

Solar is committed to following global and local protocols, regulations and standards that support a sustainable agenda and aims to cause the least possible harm to the climate and nature.

### 3.1. Environment

Solar seeks to reduce environmental impacts and promote solutions supporting the green transition via our product and services portfolio.

We constantly seek to reduce carbon emissions by finding new and innovative processes and solutions and evaluate daily operations at our premises. Specific targets including SBTi commitment have been set, monitored and followed up.

### 3.2. Social

At Solar, employees are treated equally, irrespective of gender, age, race or religion. We ensure equal rights for everyone in terms of employment, training and promotion.

We work to ensure safe working conditions for our employees and respect human rights in our operations as well as in our business relations.

### 3.3. Governance

Solar governs an accountable business. We work with recognised NGOs and measure against international benchmarks. Living up to ethical and corporate guidelines matches our ambition of being an ethical and accountable and responsible company. Solar conducts its business in an ethical way and complies with all relevant rules/regulations. We continuously seek to minimise our carbon footprint by the way we source, distribute and sell our products.

Corruption is strictly against our group values.

### 3.4. Associated policies and handbooks

- Conflict minerals policy
- Diversity policy
- Employee handbook
- Employee code of conduct
- Environment policy
- Group fleet policy
- Human rights policy

- Quality policy
- Supplier code of conduct
- Tax policy
- Whistleblower policy

### 4. DEVIATIONS TO THE POLICY

No deviations from this policy are allowed.

### 5. DIVISION OF RESPONSIBILITIES

In Solar Group, Sustainability is headed by Group Finance. When it comes to strategic initiatives and overall priorities the Sustainability Board sets the direction and ensures execution.

The Sustainability Community is responsible for continuously ensuring the implementation and communication of the initiatives.
